MEMBERSHIP STRUCTURE

WBP membership is open to companies doing business with, for and at airports, or in an airport-related industry. Every ACI WBP will designate a primary Region, determined by where the majority of their yearly airport-related revenue is earned. While being a global programme, each Region oversees the management of its own programme, which is reflected in both the unique benefits it offers and its fee structures. For an additional fee, WBPs can become an Affiliate member of another Region, which entitles them to greater benefits in that Region.
